## About Me

Detail-oriented Frontend Developer with strong expertise in React.js, JavaScript, HTML, CSS, and responsive design frameworks. Skilled in crafting modern, user-centric web applications with focus on performance and usability. Familiar with MERN stack concepts (MongoDB, Express.js, Node.js) and actively learning backend development to become a full-fledged MERN Stack Developer. Passionate about problem-solving, creating scalable solutions, and delivering high-quality code in fast-paced environments.

## Education

Heritage Institute Of Technology, Kolkata 2021 - 2025  
(CGPA: 8.2/10) Kolkata West Bengal

## Projects

### Go-Local (E-COM WEBSITE FOR THELA-WALAS)

- Go-Local is an e-commerce website where users can view local Thelawalas (cart vendors) around them and purchase items. The platform provides an easy-to-use UI, allowing even small-scale vendors to start their businesses online.
- Implemented **blockchain** for secure, decentralized transactions.
- GitHub Repository: <https://github.com/Amisha-Singh-2002/GoLocal>

### Spotify (React.js, Tailwind-CSS)

- Spotify Clone** – Built a responsive music web app using **React.js** and **Tailwind CSS** with **routing** and **React Hooks** for dynamic and smooth user interaction.
- GitHub Repository: <https://github.com/Amisha-Singh-2002/Spotify>

### E-Commerce (React.js, Tailwind-CSS)

- Built a stylish full-stack e-commerce website with a completed Frontend using React and Tailwind CSS. It includes a responsive UI, product listing, and cart features. I have integrated MongoDB and am developing the backend using Node.js and Express.js, creating APIs for authentication, products, cart, and orders. The frontend part is completed, and backend development is currently ongoing.
- GitHub Repository: <https://github.com/Amisha-Singh-2002/E-Commerce>

### Portfolio(CSS, React.js)

- This portfolio includes a well-designed landing page and sections for About, Skills, Projects, and Resume, effectively showcasing my expertise, technical skills, and accomplishments.
- GitHub Repository: <https://github.com/Amisha-Singh-2002/myportfolio>

## Technical Skills

**Frontend:** React.js, JavaScript, HTML, CSS, Tailwind CSS, Responsive Design

**Backend (Learning):** Node.js, Express.js, REST APIs

**Database (Learning):** MongoDB, SQL

**Other Tools:** Git, GitHub, Postman, VS Code

**Languages:** C/C++, JavaScript

## Experience

**CodSoft** May 2024–June 2024

*Frontend Developer ,Intern*

- My CodSoft internship provided hands-on software development experience, improving my coding, debugging, and teamwork skills. Working on real projects with expert mentorship significantly enhanced my technical abilities and confidence.
